

Suez Cement Company (S.A.E)
CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 31 MARCH 2016
TOGETHER WITH THE REVIEW REPORT

Report on Review of Consolidated Interim Financial Statements

TO THE MEMBERS OF THE BOARD OF DIRECTORS OF SUEZ CEMENT COMPANY (S.A.E)

Introduction

We have reviewed the accompanying consolidated interim financial position of **Suez Cement Company (S.A.E)** as of 31 March 2016 as well as the related consolidated interim statements of profit or loss, consolidated interim Comprehensive income, consolidated interim changes in equity and consolidated interim cash flows for the three months ended 31 March 2016, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with Egyptian Standard on Review Engagements No. 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity." A review of consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements does not give a true and fair view, in all material respects, of the consolidated interim financial position of the entity as at 31 March 2016, and of its consolidated interim financial performance and its consolidated interim cash flows for the three months ended 31 March 2016 in accordance with Egyptian Accounting Standards.

2. Basis of consolidation

Control

An investor controls an investee if and only if the investor has all the following:

- (a) power over the investee
- (b) exposure, or rights, to variable returns from its involvement with the investee
- (c) the ability to use its power over the investee to affect the amount of the investor's returns

Assessing control

An investor shall consider all facts and circumstances when assessing whether it controls an investee. The investor shall reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Loss of Control

If a parent loses control of a subsidiary, it shall:

- 1 Derecognize the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost.
- 2 Derecognize the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them)
- 3 Derecognizes the cumulative translation differences recorded in equity.
- 4 Recognize the fair value of the consideration received, if any, from the transaction, event or circumstances that resulted in the loss of control.
- 5 Recognize any investment retained in the former subsidiary at its fair value at the date when control is lost.
- 6 Reclassify to profit or loss, or transfer directly to retained earnings, the amounts recognized in other comprehensive income in relation to the subsidiary.
- 7 Recognize any resulting difference as a gain or loss in profit or loss attributable to the parent.

If a parent loses control of a subsidiary, the parent shall account for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the parent had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss on the disposal of the related assets or liabilities, the parent shall reclassify the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses control of the subsidiary. If a revaluation surplus previously recognized in other comprehensive income would be transferred directly to retained earnings on the disposal of the asset, the parent shall transfer the revaluation surplus directly to retained earnings when it loses control of the subsidiary.

Non-controlling Interests

An entity shall attribute the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests. The entity shall also attribute total comprehensive income to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Uniform accounting policies

If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

31 MARCH 2016

Business Combination

An entity shall account for each business combination by applying the acquisition method. Applying the acquisition method requires:

- (1) Identifying the acquirer;
- (2) Determining the acquisition date;
- (3) Recognising and measuring the identifiable assets acquired, the liabilities assumed, contingent liabilities assumed and any non-controlling interest in the acquiree; and
- (4) Recognising and measuring goodwill or a gain from a bargain purchase

The acquirer shall measure the identifiable assets acquired and the liabilities assumed at their acquisition-date fair values.

For each business combination, the acquirer shall measure at the acquisition date components of non-controlling interests in the acquire that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation at either:

- (a) Fair value; or
- (b) The present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets.

Goodwill

The acquirer shall recognise goodwill as of the acquisition date measured as the excess of (a) over (b) below:

- (a) The aggregate of:
 - (i) The consideration transferred measured in accordance with EAS 29 – Business combination, which generally requires acquisition-date fair value.
 - (ii) The amount of any non-controlling interest in the acquire measured in accordance with EAS 29 – Business combination; and
 - (iii) In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquire.
- (b) The net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed measured in accordance with EAS 29 – Business combination.

3. FINANCIAL STATEMENTS CONSOLIDATION PRINCIPLES

The accompanying consolidated financial statements of Suez Cement Company S.A.E. have been prepared from the standalone financial statements of Suez Cement Company S.A.E. and its subsidiaries (note 1). In preparing the consolidated financial statements of Suez Cement Company S.A.E., an entity combines the financial statements of the parent and its subsidiaries line by line adding assets, liabilities, equity, income and expenses. In order that the consolidated financial statements present financial information about the group as that of the single economic entity, the following steps are then taken:

- The carrying amount of the parent's investments in each subsidiary and the parent's portion of equity of each subsidiary are eliminated. The excess of parent company's investments in subsidiary company over the parent's share in

subsidiary's equity are recognized as goodwill and recorded as asset in the consolidated financial statements. Tested for impairment frequently; an impairment loss of goodwill is recorded in the consolidated statement of profits or losses.

- Non-controlling interest on the net of assets of consolidated subsidiaries are identified separately from the parent shareholders' equity in them; Non-controlling interest in the net of assets consists of:
 - (1) The amount of those non-controlling interest at the date of the original combination.
 - (2) The non-controlling's share of changes in equity since the date of the combination.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

- Intra group balances and transactions, including income, expense and dividends, are eliminated in full, Profits and losses resulting from intra group transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full.
- Intra group Consolidated financial statements shall be prepared using uniform accounting policies for like transactions and other events in similar circumstances.
- The income and expense of the subsidiary are included in the consolidated financial statements from the acquisition date and the non-controlling interest is to be eliminated. The income and expense of the subsidiary are included in the consolidated financial statements until the date on which the parent ceases to control the subsidiary.
- The financial statements of subsidiaries that reports in the currency not the parent reporting currency and not that reports in the currency of a hyperinflationary economy, the reporting currencies of that subsidiaries are translated to the parent reporting currency in order to combine it in the consolidation financial statements of the parent by using the following procedures:
 - (a) Translate the assets and liabilities of each balance sheet presented in the consolidated balance sheet (including the comparative figures) at the closing date.
 - (b) Translate the income and expense items of each statement of income presented in the consolidated statement of income (including the comparative figures) at exchange rates at the dates of the transactions.
 - (c) All resulting foreign currencies translation differences should be classified separately in the consolidated equity until the disposal of the net investment.

Cumulative foreign currencies translation differences arising from translation and attributable to non-controlling interest s are allocated to, and reported as part of, the non-controlling interest in the consolidated balance sheet until the disposal of the net investment.

Disposal of investment in a subsidiary that reports in the currency not the parent reporting currency, the cumulative amount of foreign currencies translation differences which have been deferred separately in the consolidated equity and which relate to that subsidiary, should be recognized as income or as expenses in the same year in which the gain or loss on disposal is recognized.

4. SIGNIFICANT ACCOUNTING POLICIES

4-1 BASIS OF PREPARATION

The consolidated interim financial statements of the Company are prepared in accordance with Egyptian Accounting Standards ("EAS").

The consolidated interim financial statements have been prepared in Egyptian pounds (EGP), which is the Company's functional and presentation currency.

The consolidated interim financial statements have been prepared under the going concern assumption on a historical cost basis. except for available for sale financial assets that have been measured at fair value.

4-2 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these consolidated interim financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key judgements and estimates that have a significant impact on the financial statement of the Company are discussed below:

Impairment of trade and other receivables

An estimate of the collectible amount of trade and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

31 MARCH 2016

Useful lives of fixed assets and investment properties

The Company's management determines the estimated useful lives of its fixed assets and investment properties for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. The management periodically reviews estimated useful lives and the depreciation method to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Taxes:

The Company is subject to income taxes in Egypt. Significant judgment is required to determine the total provision for current and deferred taxes. The Company established provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities in Egypt. The amount of such provision is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretations may arise on a wide variety of issues depending on the conditions prevailing in Egypt.

Deferred tax assets are recognised for unused accumulated tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Impairment of non-financial assets

The Company assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and chooses a suitable discount rate in order to calculate the present value of those cash flows.

Impairment of financial assets

The Company assesses at each balance sheet date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

4-3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duty.

The specific recognition criteria described below must also be met before revenue is recognized.

- **Sale of goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods.

- **Interest income**

Interest income is recognized as interest accrues using the effective interest method. Interest income is included in finance revenue in the statement of profit or loss.

- **Dividends**

Revenue is recognized when the company's right to receive the payment is established.

- **Rental income**

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

31 MARCH 2016

Borrowing

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within a year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding one year after the balance sheet date, then the loan balance should be classified as non-current liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance cost in the statement of profit or loss.

Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale are capitalised as part of the cost of the assets. All other borrowing costs are expensed in the period in which they are incurred. The borrowings costs are represented in interest and other finance costs that company pay to obtain the funds.

Income tax

Income tax is calculated in accordance with the Egyptian tax law.

Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the tax authority.

Deferred income tax

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the balance sheet (accounting base) using the applicable tax rate.

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Current and deferred tax shall be recognized as income or an expense and included in the statement of profit or loss for the period, except to the extent that the tax arises from a transaction or event which is recognized, in the same or a different period, directly in equity.

Fixed assets

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of the plant and equipment when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable of operating in the manner intended by management , and is computed using the straight-line method according to the estimated useful life of the asset as follows:

	Years
Buildings, constructions, infrastructure and roads	6 to 20
Machinery, equipment and Tools	5 to 20
Motor Vehicles	5
Furniture and office equipment	5 to 10

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizing of the asset is included in the statement of profit or loss when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end.

The Company assesses at each balance sheet date whether there is an indication that fixed assets may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

Fixed assets under construction

Fixed assets under construction represent the amounts that are paid for the purpose of constructing or purchasing fixed assets until it is ready to be used in the operation, upon which it is transferred to fixed assets. Fixed assets under construction are valued at cost net of impairment loss (if any) .

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, bank balances, and short-term deposits with an original maturity of three months .

Suppliers and accrued expenses

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Social insurance and Employees' End-of-services

Social Insurance: The Company makes contributions to the General Authority for Social Insurance calculated as a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

Employees' End-of-services:

Defined benefit plan

The Company provides end of service benefits to its employees, The entitlement to these benefits is measured based upon the employees' final salaries and length of service, The expected costs of these benefits are accrued over the period of employment.

The expected costs of these benefits are accrued over the period of employment based on the actuarial present value of the future payments required to settle the obligation resulting from employees' service in the current and prior periods.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

31 MARCH 2016

Actuarial gains and losses on End of services benefits are recognized immediately in the statement of Profit or loss in the period in which they occur.

Foreign currencies

Transactions in foreign currencies are recorded at the rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rate prevailing at the balance sheet date. All differences are recognized in the statement of profit or loss.

Nonmonetary items that are measured at historical cost in foreign currency are translated using the exchange rates prevailing at the dates of the initial recognition.

Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair value is determined.

Contingent Liabilities and Assets

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

Related party transactions

Related parties represent in parent company , associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the boards of directors.

Statement of cash flows

The statement of cash flows is prepared using the indirect method.

Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of profit or loss in the financial year in which these expenses were incurred.

Accounts receivable and other debit balances

Accounts receivable and other debit balances are stated at book less any impairment losses.

Impairment losses are measured as the difference between the receivables carrying amount and the present value of estimated future cash flows. The impairment loss is recognized in the statement of profit or loss. Reversal of impairment is recognized in the statement of profit or loss in the period in which it occurs.

Investments

Investments in subsidiaries

Investments in subsidiaries are investments in entities which the parent controls.

The parent controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Investments in subsidiaries are accounted for in the separate financial statements at cost inclusive transaction cost and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of profit or loss for each investment separately.

Investments in associates

Investments in associates are investments in entities which the company has significant influence and that is neither a subsidiary nor an interest in a joint venture,

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

31 MARCH 2016

Significant influence is presumed to exist when the company holds, directly or indirectly through subsidiaries 20 % or more of the voting power of the investee, unless it can be clearly demonstrated that this is not the case.

Investments in associates are accounted for in the separate financial statements at cost inclusive transaction cost and in case the investment is impaired, the carrying amount is adjusted by the value of this impairment and is charged to the statement of profit or loss for each investment separately.

Available for sale investments

Available for sale investments are those non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held to maturity investments or investments at fair value through profit or loss.

Available for sale investments are initially recognized at cost inclusive direct attributable expenses.

After initial measurement, available for sale financial assets are measured at fair value with unrealized gains or losses recognized directly in equity until the investment is derecognized, at which time the cumulative gain or loss recorded in equity is recognized in the statement of profit or loss, or determined to be impaired, at which time the cumulative loss recorded in equity is recognized in the statement of profit or loss, If the fair value of an equity instrument cannot be reliably measured, the investment is carried at cost.

- a) Equity investments: where there is an evidence of impairment, the cumulative loss is removed from the equity and recognized in the statement of profit or loss, Impairment losses on equity investments are not reversed through the statement of profit or loss; increases in the fair value after impairment are recognized directly in equity.
- b) Debt investments: where there is an evidence of impairment, loss is removed from the equity and recognized in the statement of profit or loss and interest continues to be accrued at original rate on the reduced carrying amount of the asset, if the fair value of the debt investment increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the statement of profit or loss, the impairment loss is reversed through the statement of profit or loss.

Interest in joint ventures

A joint arrangement is an arrangement of which two or more parties have joint control.

Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

Suez Cement Company S,A,E accounts for its interest in the joint venture in its consolidated financial statement using cost method; and in its consolidated financial statements using equity method.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

For assets traded in an active market, fair value is determined by reference to quoted market bid prices. The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics. The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics. For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Inventory

The inventory elements are valued as follows:

- Raw materials, fuel, Spare parts and Consumables, rolling and packing materials: at the lower of cost (using the moving average method) or net realizable value.
- Finished products: at the lower of the cost of production (based on the costing sheets) or net realizable value

Cost of production includes direct material, direct labor and allocated share of manufacturing overhead and excluding borrowing costs.

- Work in process: at the lower of the cost of production (of the latest completed phase based on the costing sheets) or net realizable value.

Cost of work in process includes allocated share of direct material, direct labor and allocated share of manufacturing overhead until latest completed phase and excluding borrowing costs

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write down of inventories to net realizable value and all losses of inventories shall be recognized in the statement of profit or loss in the period the write down or loss occurs according to an authorized study takes into consideration all technical and market bases to estimate any write down, The amount of any reversal of any write down of inventories, arising from an increase in net realizable value, shall be recognized in the statement of profit or loss in the period in which the reversal occurs,

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

Legal reserve

According to the Company's articles of association, 5% of the net profits of the year is transferred to the legal reserve until this reserve reaches 50 % of the issued capital, The reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors.

4-4 CHANGES IN ACCOUNTING POLICISE AND DISCLOSURES

The accounting policies adopted this year are consistent with those of the previous year except for the amendments required by the new Egyptian Accounting Standards issued during the year 2015 which is effective for the periods starting on or after January1, 2016, disclosed below the most prominent amendments which is applicable to the company and the effects of this new amendments on Financial statements, if any.

EAS (1) revised Presentation of Financial Statements:

The revised standard requires the company to disclose all items of income and expenses that were recognized during the period in two consolidated statements, statement of profit or loss (statement of income) which disclose all items of income and expenses and statement of Comprehensive income which starts with profit or loss and presents items of other Comprehensive income (Statement of Comprehensive income).

It also requires an additional statement to The Statement of Financial position disclose balances as of the beginning of the first presented comparative period in case of retrospective implementation or change in an accounting policy or reclassification carried out by the company.

The amended standard does not require the presentation of working capital.

The company has prepared the Statement of Comprehensive income and presentation of financial statements according to revised standard and there is no retrospective adjustments that require presenting Statement of Financial position which include beginning balances of the first presented comparative period.

EAS (10) revised Fixed Assets and depreciation:

The revised standard has eliminated the option of using the revaluation model in the subsequent measurement of fixed assets.

The strategic (major) spare parts and stand-by equipment can be classified as fixed assets when the entity expects to use them for more than one period (when the definition of fixed assets applies thereto).

There is no impact for this amendment on company's financial statements.

EAS (14) revised Borrowing Costs:

The revised standard has eliminated previous benchmark treatment that recognised the borrowing cost directly attributable to the acquisition, construction or production of a qualifying asset in the Statement of Profit or Loss. The revised standard requires capitalisation of this cost on qualifying assets.

There is no impact for this amendment on company's financial statements.

EAS (23) revised Intangible Assets:

The revised standard has eliminated the option of using the revaluation model in the subsequent measurement of intangible assets.

There is no impact for this amendment on company's financial statements.

EAS (34) revised Investment Property:

The revised standard has eliminated the option of using the fair value model in the measurement after recognition of the Investment Property. The standard requires to disclose fairvalue.

There is no impact for this amendment on company's financial statements.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

EAS (38) revised Employee Benefits:

Defined benefit plans

The revised standard requires immediate recognition for accumulated actuarial gains and losses in statement comprehensive income. Also, recognition of past service cost as expense at earlier of:

A) When plan amended or curtailed or,

B) When entity execute substantial restructure for its activities, hence the entity recognise related restructuring costs which comprise paying end of service benefits.

EAS (40) financial instruments: Disclosures:

A new EAS (40) Financial instruments "Disclosures" has been issued to include all required disclosures for financial instruments. The company has disclosed required disclosures in the financial statements.

EAS (41) Operating segments:

The EAS (33) Segment Reporting has superseded by EAS (41) Operating segment. Accordingly, segment reporting which should be disclosed and the required disclosures basically depends on the information about segment in the way that operating decision maker use. As described in note (3) the company currently has only one major operating segment.

EAS (45) Fair Value Measurement:

The new EAS (45) Fair Value measurement has been issued; this standard is applied when other standard requires or permits to measure or disclose the fair value. This standard defines fair value and set the frame to measure fair value in one standard and determine the required disclosure for measurements of fair value. The company disclosed all required discourses according to standards.

5. SEGMENT INFORMATION

Currently the Company's main business segment is to produce all types of cement and other products stemming from the cement industry. Revenues, profits and investments in other business segments are currently immaterial and are not separately disclosed in the financial statements

Accordingly, under EAS 41. All revenues of the Company in the period ended 31 March 2016 were reported under one segment in the financial statements.

31. CONTINGENT LIABILITIES

A- The letters of guarantee issued at the parent company's and its subsidiaries request are as follows:

Contingent Liabilities	
LE	
Suez Cement Company S,A,E,	5,275,068
Egyptian Tourah Portland Cement Company S,A,E,	24,916,931
Suez Bags Company S,A,E,	23,877,983
Hilal Cement Company (K.S.C.C) Kuwait	11,453,811
Helwan Cement Company SA,E,	49,002,625
	<u>114,526,418</u>

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

- B- The outstanding balance of issued letters of credit in favor of Suez Cement Company S.A.E by Al Mashreq Bank, HSBC – Egypt, QNB Al Ahli, and National Bank of Egypt as of 31 March 2016 amounted to LE 245,140, LE 2,079,736, LE 951,460, and LE 33,606,324 respectively.
- C- In 2011, The Globe Corporation, a company based in California in the USA (the Globe) filed a case against Helwan Cement Company SAE (HCC) claiming past due payments, based on an exclusive agency contract for the export of cement allegedly entered into between HCC and the Globe in 2002. This alleged contract provided for certain commissions/fees in favor of The Globe proportional to the volume of cement exported and also provided for a compound rate of weekly interest in case of delayed payments.
- D- The Globe's case against Helwan before the Court of Cairo claims payment of about US \$ 17 million, plus interest as per the alleged contract since the year 2002 around US \$ 3 billion. This proceeding has not yet examined the case on the merits and remains suspended while awaiting the Court of Cassation's decision on the preliminary matter of jurisdiction, given that the alleged contract provided for applicable law and dispute resolution in California (USA).
- E- Recently, Tahaya Misr Investment Inc. (formerly known as The Globe) has also initiated a lawsuit against Helwan Cement SAE (HCC), Suez Cement SAE and Italcementi S.P.A (The parent company of Ciments Francais) (major shareholder of Suez Cement Company SAE) in California -USA and as of today, there has been no general appearance of any of the named defendants before the Court).

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Overview

The Company has exposure to the following risks from its use of financial instruments:

- a) Credit risk,
- b) Market risk, and
- c) Liquidity risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Board of Directors of the Parent Company has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's senior management are responsible for developing and monitoring the risk management policies and report regularly to the Parent Company on their activities.

The Company's current financial risk management framework is a combination of formally documented risk management policies in certain areas and informal risk management policies in other areas.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk principally from its receivables from customers, due from related parties, other receivables and from its financing activities, including deposits with banks and financial institutions.

Trade and notes receivables

The Company limits its credit risk exposure related to its customers by collecting from its customers in advance and before the delivery of its products to its customers.

Other financial assets and cash deposits

With respect to credit risk arising from the other financial assets of the Company, which comprise bank balances and cash, financial assets at amortised cost, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Suez Cement Company (S.A.E)

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS 31 MARCH 2016

Credit risk from balances with banks and financial institutions is managed by local Company's treasury supported by the Parent Company. The Company limits its exposure to credit risk by only placing balances with international banks and local banks of good repute. Given the profile of its bankers, management does not expect any counterparty to fail to meet its obligations.

Due from related parties

Due from related parties relates to transactions arising in the normal course of business with minimal credit risk, with a maximum exposure equal to the carrying amount of these balances.

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Company's income. Financial instruments affected by market risk include interest-bearing loans and borrowings, and deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company does not hold or issue derivative financial instruments.

Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates and interest bearing time deposits.

Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates with all other variables held constant, of the Company's profit before tax (through the impact on floating rate borrowings).

There is no impact on the Company's equity other than the profit impact stated below.

	31 March 2016		31 March 2015	
	Change in rate	Effect on profit before tax EGP	Change in rate	Effect on profit before tax EGP
Financial asset	+1%	7,304,919	+1%	9,601,999
	-1%	(7,304,919)	-1%	(9,601,999)
Financial liability	+1%	(3,053,556)	+1%	(478,224)
	-1%	3,053,556	-1%	478,224

Exposure to foreign currency risk

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, AED and SAR exchange rates, with all other variables held constant. The impact on the company's profit before tax is due to changes in the value of monetary assets and liabilities. The company's exposure to foreign currency changes for all other currencies is not material.

Suez Cement Company (S.A.E)

c) **Liquidity risk**

The cash flows, funding requirements and liquidity of the Company are monitored by local company management supported by the Parent Company. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings. The Company manages liquidity risk by maintaining adequate reserves and borrowing facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Company currently has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Financial liabilities
